

Avoset™ Pour N' Whip

Avoset Pour N' Whip is the most premium topping choice for delectable cakes, fillings, and toppings on fruit, ice cream and mousse. Over the years it has become the choice topping for many leading hotels and foodservice businesses in the world. It has become the benchmark for the best topping. You get the smooth, rich and creamy taste of dairy topping but without the operational problems of using dairy products.

Avoset™ Pour N' Whip

Features & Benefits

Great Tasting

Smooth and rich, it's sure to please your customers by itself or in a recipe. **Versatility**

Can be used as an ingredient, topping, garnish or filling with any dessert.

Recipe Ready

Can combine with any stir-in flavor, color or ingredient and won't break down or curdle.

Yield

Whips up to four times its volume in minutes-making it cost effective and easier to store than dairy products.

Stability

Avoset Pour N' Whip is stable under refrigeration without cracking or drying out, so that desserts and special occasion cakes can be prepared in advance without losing freshness or quality.

Creativity

It's easy to add coloring or flavoring, and it lets you create dozens of designs, from shell borders to rosettes.

Handling

- Receive product and store frozen (-18°C).
- To use, thaw under refrigeration 2°C -7°C for 24-48 hours.
- Shake container well before opening.
- Pour into a chilled whipping bowl. Liquid should not exceed 20% of bowl's capacity.
- Whip on medium speed or high speed until soft peaks form and appears glossy.
- Whipped product must be stored refrigerated and can also be frozen.
- Any remaining liquid can be refrigerated for a week. Do not refreeze liquid.
- Shelf life: 12 months frozen, 2 weeks refrigerated (unopened carton), 1 week refrigerated(opened); 5 days whipped on a cake or in a dessert and stored in refrigeration.
